Soran University

Institutional Learning Outcomes (ILOs)

Upon the completion of their academic programs, Soran University graduates will be able to:

1. Demonstrate a deep understanding and knowledge of their discipline.
2. Apply disciplinary knowledge and concepts to address academic, professional, and real-world problems.
3. Critically analyze, evaluate, and interpret information, data, and sources using appropriate evidence and disciplinary approaches.
4. Apply ethical principles and professional standards in academic, professional, and social contexts.
5. Communicate effectively using appropriate language, digital technologies, and discipline-specific tools in diverse academic and professional contexts.
6. Generate creative ideas and apply innovative approaches to address problems and develop solutions.
7. Collaborate effectively and responsibly with others in diverse academic, professional, and community contexts.
8. Engage in lifelong learning and adopt sustainable practices that contribute to personal, professional, and societal development.
9. Value and respect gender, cultural, religious, national, and linguistic diversity within the society.
